4T Motorcycle Engine Oils

MOTO SBK Racing

10W-50, API SL, JASO MA*

A very high quality, synthetic motorcycle engine oil for high performance types of 4-stroke engines with wet or dry clutches. Developed for racing, road and off-road use, it will provide superior levels of protection whilst helping to release engine power.

Available in 1 L, 4 L & 25 Litre packs

MOTO SBK

10W-40, API SL, JASO MA*

A very advanced, synthetic based motorcycle engine oil for all types of 4-stroke engines with wet or dry clutches. Formulated for use over a wide temperature range it will provide superior levels of protection whilst helping to release engine power.

Available in 1 L, 4 L, 25 L & 208 Litre packs

MOTO GT

10W-40, API SG, JASO MA*

A high quality mineral based motorcycle engine oil for modern 4-stroke engines with wet or dry clutches. It provides excellent levels of engine protection and cleanliness and meets the recommendations of many manufacturers.

Available in 1 L, 4 L, 25 L & 208 Litre packs

*JASO MA specification gives you the confidence of wet clutch compatibility.

2T Motorcycle Engine Oils

MOTO RS Extreme

API TC

A very high quality, synthetic 2-stroke oil designed for high performance engines in road or off-road motorcycles with premix or oil injection systems. It is especially suited to racing conditions, providing superior levels of protection whilst helping to release engine power.

Available in 1 L & 25 Litre packs

MOTO RS Sport

API TC, JASO FC

A very advanced, synthetic based, 2-stroke oil for high performance engines in road or off-road motorcycles with premix or oil injection systems. The unique formulation releases engine power and ensures cleanliness for long engine life.

Available in 1 L & 25 Litre packs

4T Scooter Engine Oil

Scooter Class

10W-40, API SJ, ACEA A3

A very advanced, synthetic based lubricant for the latest generation of high performance 4-stroke scooter engines, air or water-cooled. Gives excellent protection over a wide temperature range whilst optimising engine performance.

Available in 1 Litre packs

2T Scooter Engine Oils

Q8 Oils

Scooter City Bike Ultra

API TC, JASO FB

A very high performance, low smoke synthetic engine oil for the latest generation of 2-stroke scooter engines, air or water-cooled, with premix or oil injection systems. Offers the ultimate protection even under the most arduous conditions.

Available in 1 Litre packs

Scooter Daily Super

API TC, JASO FC

A very advanced, synthetic based, low smoke 2-stroke engine oil for air or water-cooled scooter engines with oil injection or pre-mixed systems. Maintains optimum power while providing outstanding protection.

Available in 1 L & 25 Litre packs

Scooter City Mix

API TC, JASO FB

A high quality, mineral based, 2-stroke lubricant for air or water-cooled scooter engines with oil injection or pre-mixed systems. A clean burning formulation that reduces smoke and the formation of deposits.

Available in 1 Litre packs
